“

This program gave me the opportunity to immediately apply the lessons I was learning to the work I was doing. It seemed that every class had important information that directly impacted the decisions I needed to make, in real time. I have adapted much of what I learned into my day-to-day operations and together, they have radically changed the way I problem solve and lead my organization.”

**SUZANNE FARLEY,  
M.A. (ALUMNA 2018)**  
Executive Director,  
Wellspring

“

This program helped me understand that leadership is a purposeful process. It begins with self-awareness, then shifts outward to understand our impact on others, and ultimately to take in the larger picture. Being a leader focused on others is grounding, feeds sense of purpose, and drives lasting impact.”

**ADRIANA KLEIMAN,  
M.A. (ALUMNA 2017)**  
Senior Manager,  
The Chicago School of  
Professional Psychology

Companies and organizations are constantly evolving in response to an ever-changing marketplace. To remain successful, they need leaders who can motivate teams and who possess the in-demand business management skills necessary to maintain operational effectiveness.

This master’s program develops each of these areas for those aspiring to advance into a management or executive-level position at a dynamic organization.

Learn to be a better leader through an immersive curriculum that emphasizes critical thinking, decision-making, and management tools while embracing cultural, political, and national diversity.

Enhance your knowledge of what it takes to create a thriving organization with sustainable value in the 21st century—from data analysis and managing human resources, to long-term strategic planning and understanding the principles of marketing.

Successful graduates position themselves as prime candidates for leadership positions in current organizations, while also gaining the expertise to own and operate their own business if they prefer the path of entrepreneurship.

It’s time to take your career to the next level. Whether in business, nonprofit, higher education, or another sector, step up and become the leader every successful organization needs.
