

LOS ANGELES-BASED AND OWNED TOSCA FASHION PROVIDES HIGH-QUALITY MASKS FOR BUSINESS DURING THE ONGOING COVID-19 CRISIS

As businesses re-open, the usage of masks/ facial coverings is a necessity.

To meet this need, **Tosca Fashion**, an LA-based and independently owned clothing and design firm, is now distributing high-quality cost-effective masks to businesses.

WHAT SETS OUR MASKS APART?

1) **We are approved by “LA Protect”.** The goal of LA Protect is to work with local manufacturers who are not already in the protective gear supply chain, to produce five million non-medical masks which can be used by workers.

2) **Our masks conform with Kaiser Permanente’s design specifications for non-medical masks.**

3) **Our masks are made with 100% cotton** to allow for breathability and comfort. Also, the masks include an inner layer pocket that allows for a filter to be inserted.

4) **You can purchase optional insertable filters.** The filter is a sonic laminated nano fiber layer for extra filtration. The filter is nonwoven and constructed from a polypropylene/nanofiber/polyester composite.

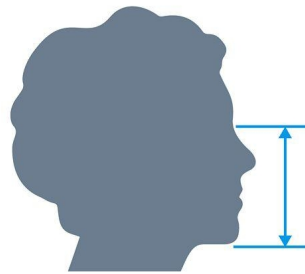

5) **Our masks are reusable** (unlike surgical masks made from paper) and do not add to the amount of trash in our landfills and oceans.

20% of sales revenue generated from the purchase of these masks will be donated to Children of One Planet, a 501(c)(3) Non-Profit Agency, to help children in need. Children of One Planet will work towards addressing the problem of childhood hunger in Los Angeles County.
